

Gene Tree:

Listen. Now. Again

by **ST MARTINS** and **Corrugated Iron Youth Arts**

‘Do we have to have hope to evolve?’

St Martins brings its award-winning production from Melbourne to make afresh with Darwin’s own children, young people and artists.

Music, rhythm and projections interlace with children’s stories of connection to nature, adaptation and change. Part living sculpture, part call to attention, Gene Tree immerses audiences inside a chorus of children’s voices, dreaming futures together within the nooks and crannies of the George Brown Darwin Botanic Gardens.

Thursday 17 July
Friday 18 July
Monday 21 July

5.30pm – 7pm
