**DON'T
LOOK BACK
IN ANGER**

After 16 years apart, Liam and Noel Gallagher are back together — and Oasis are back on the road.

Oasis: Don't Look Back in Anger takes audiences behind the scenes of the band's extraordinary reunion and the hugely anticipated Oasis Live '25 tour, capturing the scale, energy and emotion of one of the biggest musical events of 2025.

From rehearsals and backstage moments to electrifying live performances, the film offers unprecedented access to Oasis as they return to the stage for the first time since the band's split in 2009.

At its heart is the relationship between brothers Liam and Noel Gallagher, whose famously turbulent history has been played out in public for decades. For the first time in more than 20 years, the brothers sit down together for joint interviews, reflecting on their history, their music and the extraordinary journey that brought them back together.

But this is more than a concert film. Don't Look Back in Anger explores what Oasis means to the millions of people who have grown up with their music, from the explosion of Britpop in the 1990s to the new generation discovering the band today. As the Live '25 tour travels around the world, the film captures the anticipation, excitement and sheer emotional release of fans finally seeing Oasis together again.

Featuring rare and never-before-seen footage, intimate behind-the-scenes access and unforgettable performances, Oasis: Don't Look Back in Anger celebrates the enduring power of the band's music and the remarkable cultural moment of their return.

Directed by Dylan Southern and Will Lovelace, and created by acclaimed writer and filmmaker Steven Knight, this is the story of Oasis' most anticipated comeback — told from inside the tour, on stage and through the eyes of the fans who never stopped believing.

Oasis are back. It's been a long time coming. Don't look back.
