

INTERNATIONAL ACADEMIC SEMINAR

Age-friendly cities and sustainability

Northern Institute presents Professor Joost van Hoof, a global leader in urban ageing and sustainable policy research at The Hague University of Applied Sciences.

This seminar will explore WHO's 'Global Age-Friendly Cities' initiative, the newly developed SustainABLE-8 instrument and unpack what it really means to support older populations in the face of climate change, financial stress, and urban transitions.

Wed 16 July | 10:30-11:30 am
In-person at Danala CDU Campus
Online via Zoom
