**HAVE YOU EVER HAD A HANGOVER SO HUGE YOU
WOULD EAT A WHOLE FRIED CANARY?
THE ROMANS DID!**

**FANCY FREESTYLING IN A SWIMMING POOL OF
BEER?
HEAD TO AUSTRIA.**

Humans have known how to party for a very long time. Scientists say that our modern love of alcohol can be traced to the ancient past and that social drinking played a key role in our evolution as we developed into big-brained, social primates.

From stone age binge drinking at the ancient site of Gobekli Tepe in Turkey to the Aussie Rum Rebellion and the humble goon bag. We have a whole hysterical history of drinking booze.

**PREPARE TO BE BREWED AWAY IN THIS
INTERACTIVE, FUN FACT (AND GROG GAG) FILLED,
TRIBUTE TO THE GREAT CULTURAL PASTIME OF
GETTING ON THE “NECTAR OF THE GODS”.**
